

The DUX Axion

COMFORT IN ACTION

The DUX Axion combines the benefits of the DUX sleep system with the elevation capabilities of an adjustable bed. Its multi-layered Swedish steel springs offer the perfect combination of stability and support, while its dynamic, silent motor helps you settle into just the right height and angle. The DUX Axion comes with our Xupport Top Pad and is presented in its own storage bag.

Experience the DUX Difference

SWEDISH STEEL SPRINGS

At the heart of The DUX Axion are Swedish steel springs. More springs provide better contouring for your body, reducing pressure points which can help improve circulation.

POWER TO SPARE

A 9-Volt battery enables you to return the bed to its original flat position in case of a power outage.

FINGERTIP CONTROL

The DUX Axion's elevation can be easily adjusted with an ergonomic and user friendly handheld remote control that features softtouch night glow buttons.

EXTRA SUPPORT

The DUX Axion comes with our Xupport Top Pad. This 6 cm replaceable cotton covered latex top pad adds softness and cushioning.
